

Orlando FSDO FAA Safety Team presents:

Vero Beach Regional Airport ATCT Runway Safety Action Team (RSAT) Meeting

Runway incursions remain a serious concern nationally. One important component of our ongoing efforts to improve surface safety at VRB Airport involves conducting a Runway Safety Action Team (RSAT) meeting at least once each year. In conjunction with airport management, Vero Beach ATCT will be conducting a local RSAT meeting on January 12, 2022. The meeting is scheduled for 10:00am 2nd floor Airport Terminal Building.

The purpose of this RSAT meeting is to unite those individuals and organizations that are actively involved in air traffic operations and movement of aircraft, vehicles and equipment on the Airport Operations Area (AOA). We look for participation from all major airport interests including tenants, fixed base operators, airport operations and maintenance personnel. Participants are asked to help develop recommendations and solutions to enhance surface safety. Those recommendations serve as the foundation for a site-specific Runway Safety
